

**SOCIETY FOR EMERGENCY
MEDICINE INDIA**

YEAR BOOK - 2025

SEMI YEAR BOOK - 2025

Dear Esteemed Emergency Medicine Colleagues,

The Society for Emergency Medicine India (SEMI) stands proudly as the largest representative organization for Emergency Medicine in India and as a full member of the International Federation of Emergency Medicine, enhancing India's visibility and influence on a global scale.

It gives me immense pride to acknowledge the significant milestones achieved recently. Notably, our successful collaboration with Tamil Nadu Dr. MGR Medical University (TNMGR University) has vastly enhanced emergency medicine training across Tamil Nadu, providing structured life-support courses to postgraduate and super-speciality students.

**Dr. Sree Sowjanya
Patibandla**

**President - SEMI,
president@semi.org.in
Ph: +91 94944 14911**

Additionally, our groundbreaking Health-QUEST project, published in the prestigious International ISQUA Journal, represents an unprecedented collaboration with ISRO and AHPI, significantly elevating quality and patient safety standards in emergency departments nationwide.

The recent SEMICON East Zone hosted by AIIMS Patna further highlighted our commitment to continuous professional development, fostering educational growth among emergency medicine postgraduates.

Looking ahead, SEMI is dedicated to building comprehensive educational assets, expanding capacity building initiatives, and prioritizing rural emergency medicine to ensure equitable healthcare access throughout India.

As National President (2024-2026), I am committed to driving SEMI's vision forward, ensuring quality emergency care reaches every patient, in every corner of our nation. Thank you to all SEMI members for your unwavering dedication and contributions to advancing Emergency Medicine in India.

Warm regards,
Dr. Sree Sowjanya Patibandla

KEY UPDATES

EMCON 2024 the 25th Annual National conference of SEMI, held at Chennai, Tamilnadu, November 7-9 2024.

KEY UPDATES

SEMI representation at ESEM 2024, Dubai.

SEMI Guwahati CME – Strengthening Regional Engagement

In December 2024, the Society for Emergency Medicine India (SEMI) hosted a well-received Continuing Medical Education (CME) program in Guwahati, which witnessed an impressive turnout and active participation from emergency medicine professionals across the region. Following the sessions, SEMI leaders held a productive discussion with local members on revitalizing the Guwahati Chapter and expanding academic and training activities in the Northeast. There was strong enthusiasm for renewed collaboration and local initiatives, signaling promising growth in the region.

SEMI extends sincere appreciation to Apollo Excelcare Hospital, Guwahati, for their excellent coordination and for bringing together participants from across Assam. Special thanks to Dr. Ramyajit Lahiri (Vice President – East) and Dr. Praneeth for their outstanding faculty contributions, and to Dr. Debangaborah for his valuable support in making the event a success.

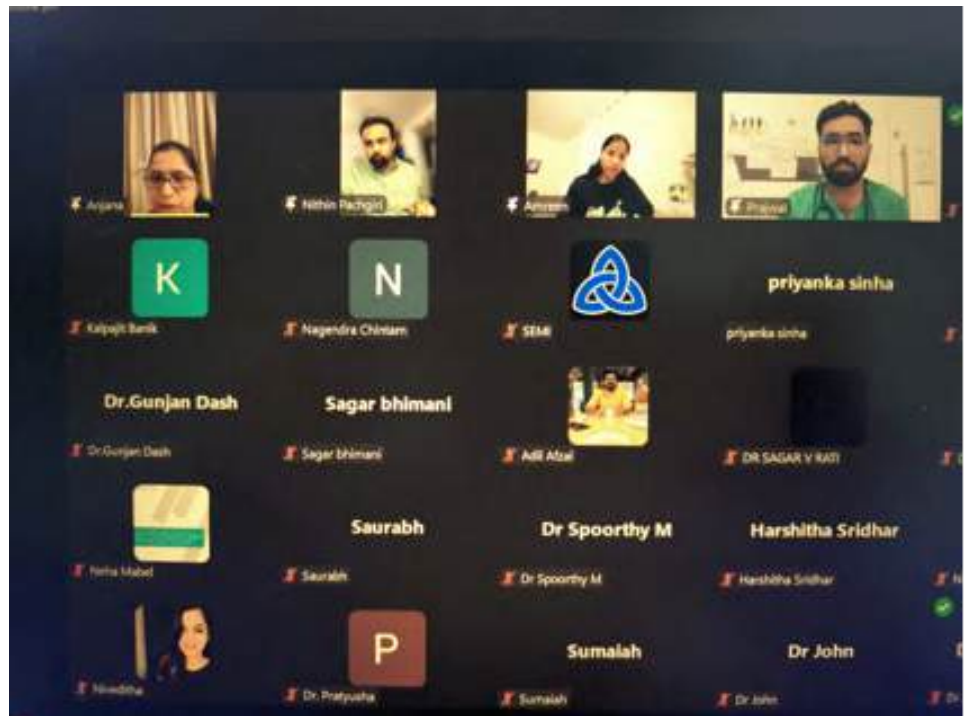

SEMI Conducts NCLS Program at Amara Hospital, Tirupati

In December 2024, the Society for Emergency Medicine India (SEMI) successfully conducted the National Cardiac Life Support (NCLS) program at Amara Hospital, Tirupati.

The program was expertly coordinated by Dr. Sivarama Reddy and Dr. Manzoor, and delivered valuable hands-on training and clinical insights to all participants.

The sessions were led by an esteemed faculty team comprising Dr. Manzoor, Dr. Harish, and Dr. Venkat, whose expertise ensured an engaging and impactful learning experience.

This initiative reflects SEMI's continued commitment to strengthening advanced life support training and enhancing emergency care competency across institutions nationwide.

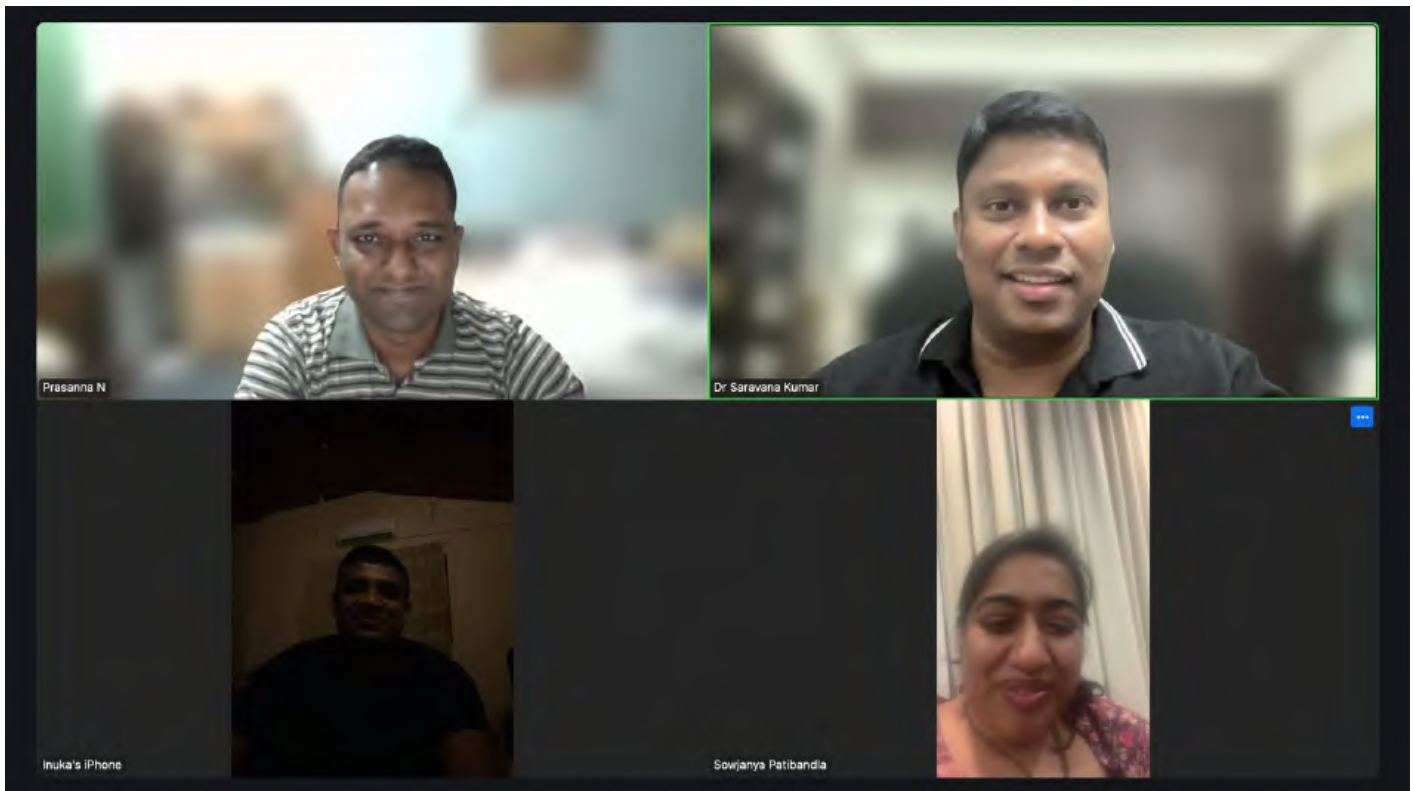

Resuscitation and Procedural Skills Workshop – VASA Simulation Academy, December 2024

In December 2024, SEMI conducted a one-day Resuscitation and Procedural Skills Workshop at VASA Simulation Academy for emergency medicine and critical care postgraduate students.

The workshop covered essential resuscitation techniques, management of difficult airways, and Point-of-Care Ultrasound (POCUS) skills, providing participants with hands-on training and practical insights.

The program was led by esteemed SEMI faculty members Dr. Nilu Sunil, Dr. Muniraju, Dr. Ceema, Dr. Suhas Sagar, and Dr. Kiran, ensuring a comprehensive and impactful learning experience for all attendees.

SEMI Explores Collaborative Initiatives with the Sri Lankan Society for Emergency Medicine

In January 2025, SEMI held a productive Zoom meeting with Dr. Inuka, President of the Sri Lankan Society for Emergency Medicine, and Dr. Prasanna to discuss potential collaborative ventures between the two organizations.

The discussion built on the groundwork laid by Dr. Nischal during his visit to Sri Lanka ten days prior, covering joint programs, knowledge exchange, timelines, roles, and mechanisms for regular follow-ups.

Both parties expressed strong interest in formalizing a collaborative roadmap, establishing a coordinating team, and preparing proposals for pilot initiatives in the near future. SEMI looks forward to continuing this engagement and sharing updates on the progress of these initiatives.

SEMI State board Election

Punjab State board Election conducted on Jan 2025. The election board members of SEMI Dr.Soujanya Padipandla, National president and Dr.Rajadurai M, National Secretary conducted the election.

2-Day Emergency Training on Acute Respiratory Illness & Hypertensive Emergencies, Mizoram – February 2025

In February 2025, SEMI organized a 2-day focused training program for government doctors and nurses in Mizoram, aimed at strengthening frontline management of acute respiratory illnesses and hypertensive emergencies.

The sessions were led by SEMI faculty members Dr. Nilu, Dr. Manzoor, Dr. Harish, and Mr. Manickavasagam, and included case-based discussions and hands-on drills designed to enhance decision-making under pressure.

Participants from government hospitals across Mizoram engaged in interactive learning and practical exercises, emphasizing skills that can be directly applied to real-world emergency scenarios.

This initiative reflects SEMI's ongoing commitment to capacity building in underserved regions, ensuring healthcare professionals are better equipped to respond effectively to critical emergencies and improve patient outcomes.

SEMI Conducts Large-Scale Basic Life Support Training at Meenakshi Women's Arts and Science College, Chennai

On 10th and 11th February 2025, the Society for Emergency Medicine India (SEMI) conducted a comprehensive Basic Life Support (BLS) training program at Meenakshi Women's Arts and Science College, Kodambakkam.

The initiative was launched under the guidance of Dr. K. Narayanasamy, Vice Chancellor, The Tamil Nadu Dr. M.G.R. Medical University, with the objective of equipping students with essential life-saving skills.

The sessions were led by SEMI National Board Members — Dr. Saravanakumar, Dr. Srinathkumar, Dr. Rajadurai, and Dr. Sai Surendar — whose expertise ensured a high-quality, hands-on learning experience.

Over 2,400 students participated in the training, gaining practical exposure to vital BLS techniques. This large-scale initiative reflects SEMI's ongoing commitment to expanding emergency care education and fostering life-saving competencies among the next generation.

SEMI Uttar Pradesh Chapter at Mahakumbh 2025 – Emergency Care for Devotees

In February 2025, the SEMI Uttar Pradesh Chapter launched a critical public health initiative during the Mahakumbh in Prayagraj, deploying ALS ambulances and a SEMI Mediclinic to provide emergency medical support to devotees.

Led by Dr. Sujeet Singh, the initiative ensured timely and efficient prehospital care during the massive gathering, demonstrating SEMI's commitment to advancing emergency medical services and supporting community health and safety across India.

SEMI Partners with The Tamil Nadu Dr. M.G.R. Medical University to Strengthen Life Support Training

The Society for Emergency Medicine India (SEMI) has entered into a collaboration with The Tamil Nadu Dr. M.G.R. Medical University to train postgraduate and super-specialty doctors in National Basic Life Support (NBLS) and National Cardiac Life Support (NCLS).

The Memorandum of Understanding was exchanged in the presence of Hon. Health Minister Thiru M.A. Subramanian and Prof. Dr. K. Narayana Swamy, Vice Chancellor.

SEMI was represented by:

- Dr. Sowjanya Patibandla, National President
- Dr. Saravana Kumar, Past President and Executive Co-Chair
- Dr. Sai Surender, National Treasurer
- Dr. T. S. Srinathkumar, Chair, Academics
- Mr. Manickavasagam, Program Coordinator

This collaboration underscores SEMI's ongoing commitment to strengthening emergency care education and standardizing life support training across the country. It marks another meaningful step in SEMI's mission to build skilled, confident, and competent emergency care professionals nationwide.

KEY UPDATES

SEMI Delhi Chapter – State Board Elections, March 2025

In March 2025, the SEMI Delhi Chapter conducted its state board elections in a transparent and fair manner to elect the State Chapter President.

The elections reflect SEMI's commitment to democratic processes, governance, and active member participation in shaping the leadership and direction of the chapter.

Rapid Revision in Emergency Medicine – AIIMS Patna, March 2025

The Department of Emergency Medicine, AIIMS Patna, in collaboration with SEMI Bihar, successfully organized a two-day “Rapid Revision of Emergency Medicine” program on 22–23 March 2025. Designed for postgraduate students, the workshop focused on high-yield topics essential for examinations and clinical practice in emergency medicine.

Around 25 eminent faculty members from across India contributed their expertise, delivering a comprehensive and focused curriculum tailored to postgraduate needs.

Dr. S. R. Sowjanya (President, SEMI) extended congratulations to the organizing team, highlighting the efforts of SEMI Bihar and recognizing Dr. Divendu Bhushan, Head of the Emergency Medicine Department, AIIMS Patna, for his leadership and dedication to medical education.

The program fostered an interactive environment for learning, revision, and mentorship, reaffirming AIIMS Patna’s and SEMI Bihar’s commitment to elevating Emergency Medicine training in the region.

CARE Hospitals hosts NULS workshop in association with SEMI

METRO INDIA NEWS | HYDERABAD

CARE Hospitals, Banjara Hills, in collaboration with the Society for Emergency Medicine India (SEMI), hosted the National Ultrasound Life Support (NULS) Workshop, an advanced clinical learning initiative designed to equip physicians across India with critical point-of-care ultrasound (POCUS) skills.

The workshop provided hands-on training to emergency and critical care physicians on life-saving ultrasound techniques for use in high-pressure clinical scenarios such as trauma, cardiac arrest, and shock.

The program, accredited by the Telangana State Medical Council with two credit hours,

featured live demonstrations, simulation modules, and interactive sessions on protocols like eFAST, RUSH, IVC, Lung, and Cardiac Ultrasound.

Dr. Kiran Kumar Varma K, Associate Clinical Director, Zonal HOD (Banjara Hills and Malakpet), Department of Emergency Medicine, CARE Hospitals and Course Director

for NULS, shared 'Ultrasound is now a cornerstone of emergency diagnostics, and our goal with NULS is to translate this powerful tool into routine, high-impact clinical practice. We are proud to lead such industry-defining skill-building programs.'

Dr. Sowjanya Patibandla, President, SEMI Board and Key-note Speaker, noted, 'The NULS

Workshop marks a new chapter in collaborative learning for emergency care providers. As ultrasound becomes a frontline diagnostic tool, structured programs like this are crucial in building clinician confidence and competence. SEMI is proud to partner with CARE Hospitals in driving this advancement.'

SEMI East Zone SEMICON – AIIMS Patna, March 2025

In March 2025, SEMI East Zone SEMICON was successfully conducted by AIIMS Patna, bringing together emergency medicine professionals, educators, and students from across the region.

The event highlighted the collaborative efforts of SEMI and AIIMS Patna in promoting excellence and innovation in emergency medicine across the eastern zone. The program was conducted under the patronage of Dr. Devendu Bhushan, Head of the Emergency Department, AIIMS Patna, ensuring a comprehensive and impactful learning experience for all participants.

Launch of SEMI-HSSC Adult and Paediatric Life Support Courses – April 2025

In April 2025, the SEMI-HSSC Adult and Paediatric Life Support Courses were officially launched in the presence of Dr. Alexander Thomas, President, HSSC, and Dr. Ashish Jain, CEO, HSSC, Dr Sowjanya President SEMI along with SEMI leaders from across the country. This collaboration represents a significant step in strengthening emergency care capacity across India, providing healthcare professionals with essential life-saving skills. SEMI remains committed to the principle that emergency care is a right for every citizen, and this initiative reinforces that vision by empowering healthcare providers nationwide to deliver timely and effective emergency interventions.

SEMI Representation at ELASCON 2025, Sri Lanka

The Society for Emergency Medicine India (SEMI) participated in ELASCON 2025, Sri Lanka, reinforcing its commitment to international collaboration and the advancement of emergency medicine across the region.

SEMI's presence provided an opportunity to engage with peers, share best practices, and explore emerging trends in emergency care. As part of the participation, SEMI hosted dedicated workshops on POCUS (Point-of-Care Ultrasound) and MRCEM preparation, offering hands-on learning and guidance to participants.

The highlight of SEMI's engagement was the first-ever GEE (Global Emergency Education) Workshop, hosted under the leadership of Dr. Imron Subhan, Executive Chair of SEMI, marking a significant milestone in SEMI's international educational initiatives.

This participation underscores SEMI's ongoing efforts to build global networks and promote excellence in emergency medicine education.

KEY UPDATES

*Honoring Women
in Emergency
Medicine This
International
Women's Day*

8TH MARCH, 2025

DR ROOPAK P

Consultant, Emergency Medicine, Banglore Rapid
Hospital, Bangalore

Do you think there are enough opportunities for women in leadership roles within the emergency medicine field? What could be done to improve that?

"Historically, women have faced challenges in reaching leadership roles in emergency medicine. The field of emergency medicine has been traditionally male-dominated, and women have often been overlooked for leadership positions. However, in recent years, there has been a growing awareness of the importance of diversity and inclusion in the workplace, and this has led to a more equitable environment for women in emergency medicine. To improve the representation of women in leadership roles, it is important to create a supportive environment for women, provide mentorship and training opportunities, and encourage women to pursue leadership roles in emergency medicine."

DR NIHARIKA ANEJA

Consultant, Emergency Medicine, Manipal Hospitals
Support Unit, Bangalore

How have you faced gender-specific challenges or biases in your career? How did you deal with them?

The women in the emergency medicine profession are a mix of strengths and challenges. As a woman in the field, I have faced gender-specific challenges and biases in my career. However, I have learned to deal with them by focusing on my strengths and skills, and by seeking support from my colleagues and mentors. I have also learned to be resilient and to persevere in the face of adversity. I believe that women in emergency medicine can make a significant impact on the field, and I am committed to doing so."

DR CEEMA SAM

Consultant, Emergency Medicine, Apollo Hospital
Tamil Nadu

What does International Women's Day mean to you personally, especially as a woman in a high-stress medical field like emergency medicine?

"International Women's Day is an important day for me as a woman in the emergency medicine field. It is a day to celebrate the achievements of women and to raise awareness of the challenges they face. It is a day to inspire women to pursue their dreams and to make a difference in the world. I am proud to be a woman in emergency medicine, and I am committed to making a positive impact on the field."

My advice for young women physicians is to focus on their strengths and skills, and to seek support from their colleagues and mentors. They should also be resilient and persevere in the face of adversity. They should also be committed to making a positive impact on the field.

DR NIVEDITHA BALAKRISHNAN

Emergency specialist, Manipal Hospitals, Jyväskylä Unit

In your opinion, how can we encourage more women to pursue careers in medicine, particularly in specialties like emergency medicine?

"Emergency medicine is a critical care specialty that requires a high level of skill and dedication. It is a specialty that is often overlooked by women, but it is a specialty that offers a unique and rewarding career path. To encourage more women to pursue careers in emergency medicine, we need to create a supportive environment for women, provide mentorship and training opportunities, and encourage women to pursue their dreams and to make a difference in the world."

My advice for young women physicians is to focus on their strengths and skills, and to seek support from their colleagues and mentors. They should also be resilient and persevere in the face of adversity. They should also be committed to making a positive impact on the field.

SEMI at ACEP 2025 – Showcasing India on the Global Stage

Team SEMI made a strong presence at ACEP 2025, Salt Lake City, highlighting the growth of Emergency Medicine in India at the Global Village, engaging with international EM leaders, and fostering global collaborations.

Key achievements:

- Dr. T. S. Srinathkumar – Awarded Ambassador for International Emergency Medicine
- Dr. Saravana Kumar – Awarded the Individual Achievement Award

Other SEMI leaders contributed significantly through continued representation in committees and sections:

- Dr. Sowjanya Patibandla – ACEP Research Committee & American Women in EM
- Dr. Sai Surender – Geriatric Emergency Medicine Section
- Dr. Rajadurai – International Emergency Medicine Section

SEMI leaders also interacted with global counterparts including Dr. Andriyan Boyle (RCEM President), Dr. Alison Haddock (ACEP President), Dr. Mariyam (ESEM President), and Dr. Michele (ICEM 2026 Committee), reflecting SEMI's growing international influence.

This participation underscores SEMI's commitment to promoting Indian emergency medicine globally and advancing collaborations that strengthen the specialty worldwide.

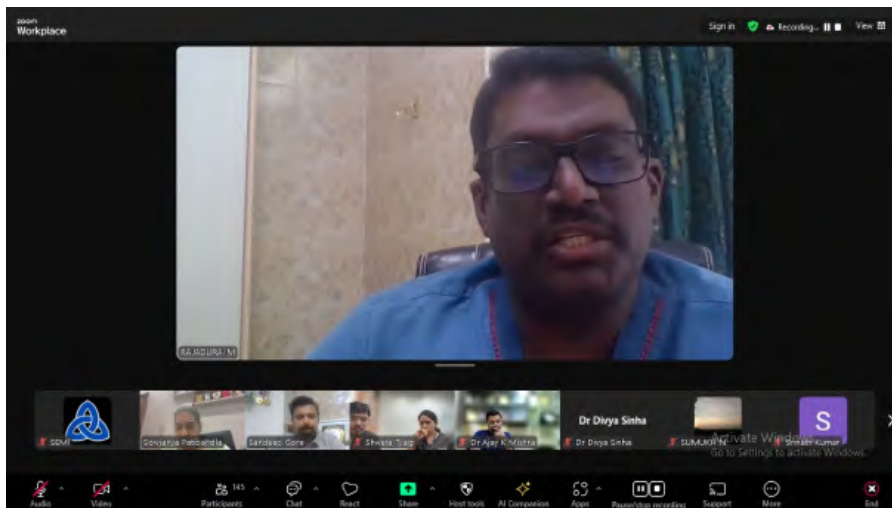

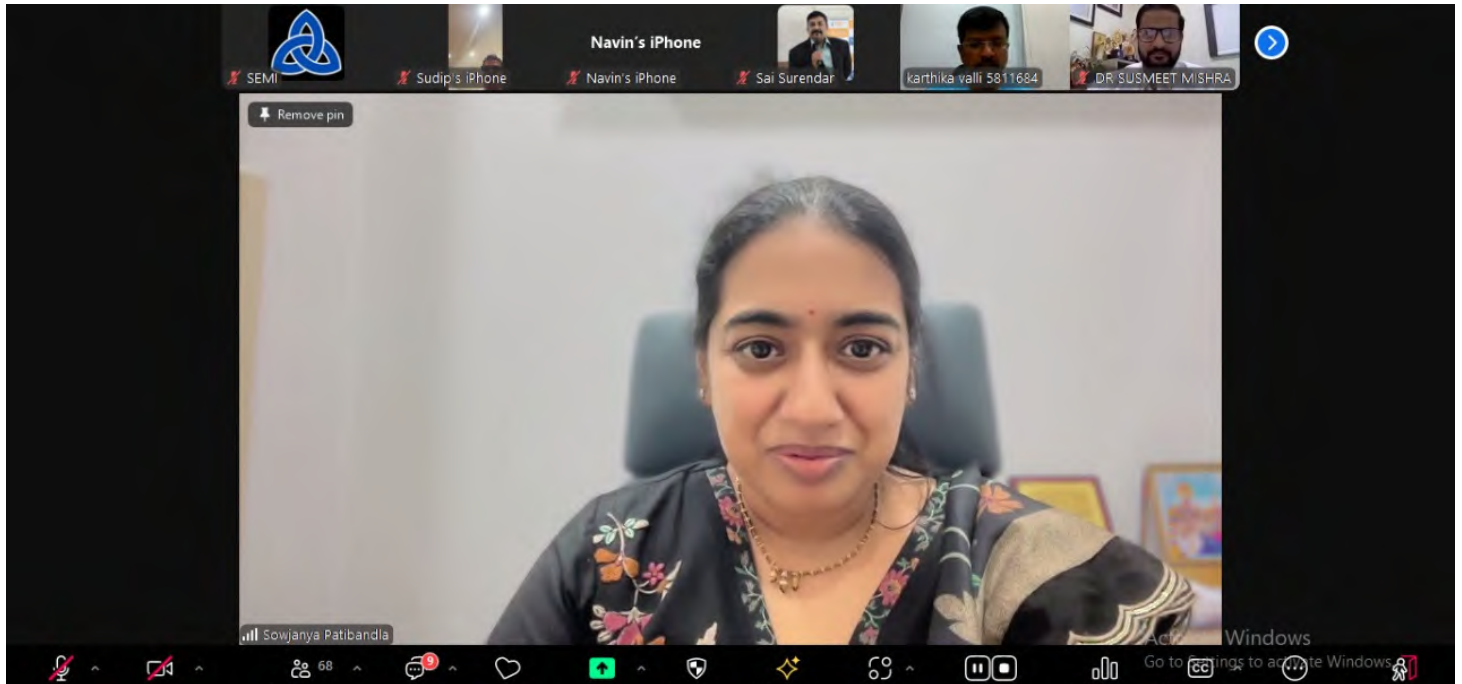

SEMI Representation at SAE 2025 – Buenos Aires, Argentina

In 2025, the Society for Emergency Medicine India (SEMI) actively participated in the SAE Conference held in Buenos Aires, Argentina. The event offered a global platform for SEMI to showcase India's advancements in emergency medical education and practice.

SEMI's delegation included Dr. T. S. Srinath, Dr. Sandeep Gore, and Dr. Swetha Tyagi, Dr. Naga Nischal who engaged with international peers to share best practices, discuss emerging trends, and strengthen collaborative networks in emergency medicine.

This participation underscores SEMI's commitment to building India's presence on the global emergency medicine stage and fostering international collaborations for the advancement of the specialty.

SEMI e-Lecture Series – Ongoing Online Learning for Emergency Physicians

The SEMI e-Lecture Series is a monthly interactive online program designed for emergency physicians, with each session focusing on a new theme in emergency care. Spearheaded by Dr. M. Rajadurai (SEMI National Secretary) and Dr. Sandeep Gore (SEMI National Joint Secretary), the series blends expert lectures, live case discussions, polls, and Q&A to foster active engagement.

Over time, the program has developed a comprehensive archive of recordings and supplementary materials, enabling continuous access and learning.

As a sustained continuing education platform, the e-Lecture Series strengthens clinical skills, encourages peer collaboration across regions, and supports the practical application of knowledge in emergency care settings.

VECON 3.0 Pre-Conference Workshop – EMCON 2025, Vadamalayan Hospital

As part of EMCON 2025, VECON 3.0 pre-conference workshop was held at Vadamalayan Hospital, organized in collaboration with SEMI Tamil Nadu. The workshop was inaugurated by Mr. Saravanan IAS, Dindigul Collector, who appreciated Dr. Jude Vinoth for his 20 years of active academic support under SEMI.

The program was designed for postgraduates, general physicians, duty medical officers at primary health centres, nurses, and EMTs, offering hands-on training to strengthen emergency care skills. The one-day conference was coordinated by various SEMI Tamil Nadu faculty members and accredited with 2 hours of TNMC credit.

This initiative reflects SEMI's ongoing commitment to enhancing emergency medicine training at the grassroots level and supporting continuous professional development across healthcare providers.

SEMI West bengal chapter Academic meet conducted on Jan 2025 at kolkata

SEMI BLS and First Aid Training – Raipur, May 2025

In May 2025, SEMI conducted a Basic Life Support (BLS) and First Aid training program at the Rajeev Gandhi National Ground Water Training & Research Centre, Raipur.

Led by Dr. Santhosh Singh, the session equipped participants with essential life-saving skills to respond effectively during medical emergencies. This initiative reflects SEMI's ongoing commitment to promoting emergency preparedness and first responder training across diverse sectors.

Geriatric CME at Dr. Kamakshi Memorial Hospital, Chennai – June 2025

In June 2025, SEMI conducted a Geriatric Continuing Medical Education (CME) program at Dr. Kamakshi Memorial Hospital, Chennai.

The program was organized by Dr. Sai Surendar, SEMI Treasurer and National Board Member, and focused on enhancing knowledge and best practices in geriatric emergency care, equipping healthcare professionals with the skills needed to manage the unique challenges of older patients effectively.

Cardiac Arrest Resuscitation Training at Kerala Legislative Assembly – September 2025

In September 2025, SEMI conducted a landmark Cardiac Arrest Resuscitation Training session at the Kerala Legislative Assembly for the Hon. Chief Minister and Hon. Health Minister of Kerala.

Led by Dr. Shiju Stanly, the session highlighted the critical importance of timely intervention during cardiac emergencies, reinforcing the value of life-saving skills among key policymakers.

SEMI NTLS Program at SPARSH Hospital, Bangalore – June 2025

In June 2025, SEMI conducted a National Trauma Life Support (NTLS) program at SPARSH Hospital, Bangalore, aimed at enhancing the trauma care skills of healthcare professionals.

The program, led by Dr. T. S. Srinathkumar, provided participants with comprehensive training in trauma assessment, resuscitation, and critical decision-making, ensuring readiness to manage emergency situations effectively. Through interactive sessions, case-based discussions, and hands-on exercises, attendees gained practical experience in delivering timely and life-saving interventions for trauma patients.

This initiative reflects SEMI's ongoing commitment to strengthening trauma care capabilities and improving patient outcomes across emergency medical services in India.

SEMI BLS Training for Dental Postgraduates – Priyadarshini Dental College, Thiruvallur, May 2025

In May 2025, the Society for Emergency Medicine India (SEMI) organized a Basic Life Support (BLS) training session for postgraduate dental students at Priyadarshini Dental College and Hospital (PDCH), Thiruvallur under the patronage of Dr T S Srinath Kumar and Dr S Saravana Kumar. The program aimed to equip dental professionals with essential life-saving skills, enhancing their readiness to handle medical emergencies in clinical practice.

The session was led by Dr. Hariharan and Mr. Manickavasagam, esteemed SEMI faculty, who guided participants through critical BLS techniques including cardiopulmonary resuscitation (CPR), airway management, and the use of automated external defibrillators (AEDs).

This initiative reflects SEMI's commitment to interdisciplinary collaboration and ensuring that healthcare professionals across specialties are well-prepared to respond effectively to emergencies.

Pre-EMCON CME & Workshop on Thrombocon 1.0 – Yashoda Hospitals, Malakpet.

Yashoda Hospitals, Malakpet, hosted the Pre-EMCON CME & Workshop on Thrombocon 1.0, with 137 delegates in attendance. The program was led by Dr. Kondle Raghu and featured expert lectures, hands-on sessions, and interactive discussions designed to deepen participants' understanding of thrombosis, diagnostics, and emerging therapies.

The CME & Workshop provided an excellent platform for networking, knowledge exchange, and professional development, reinforcing SEMI's commitment to advancing expertise in emergency medicine and related specialties.

In Setember 2025, the SEMI National Board Meeting was held in Bangalore,

**Auspicious Start: SEMI's Bengaluru Office Pooja Ceremony on May 18, 2025**

The Society for Emergency Medicine India (SEMI) marked a new milestone with the inauguration and pooja ceremony of its first official office in Bengaluru on May 18, 2025. This event represents a significant step in strengthening SEMI's national presence and operational capabilities.

The new office will serve as a central hub for coordination, training, and academic initiatives, enabling SEMI to expand its programs in education, research, and quality improvement across the country.

The ceremony was attended by SEMI National Board Members, regional representatives, and invited guests who joined in invoking blessings for the continued growth and success of the organization.

With this new beginning, SEMI reaffirms its commitment to advancing emergency medicine as a specialty and building stronger networks that support emergency care professionals nationwide.

SEMI Plexus – National EM Clinical Protocol Drafting

SEMI Plexus, a unique initiative under the patronage of Dr. T. S. Srinathkumar, brought together 100 Emergency Department (ED) heads from both government and private sectors to collaboratively draft national Emergency Medicine clinical protocols.

The first edition of the event was successfully completed, and the final protocol document is expected to be launched soon, marking a significant step toward standardizing emergency care practices across India.

Indian Stroke Association National Conference – Collaboration with SEMI Chhattisgarh, June 2025

In June 2025, the Indian Stroke Association conducted its national conference in collaboration with SEMI Chhattisgarh. The event saw active participation from SEMI National and State Board Members, who represented SEMI across various scientific and panel sessions.

This collaboration underscored the shared commitment of both organizations to enhancing acute stroke care, strengthening emergency response systems, and promoting multidisciplinary learning in neurological emergencies.

Induction Program at Dr. Mehta's Hospitals, Chennai

SEMI conducted an Induction Program at Dr. Mehta's Hospitals, Chennai for the new batch of CCTEM students. As part of the orientation, all students completed National Cardiac Life Support (NCLS) training before commencing clinical duties.

This initiative highlights the importance of preparedness and patient safety, aligning with SEMI's mission to strengthen emergency medicine training and clinical competency from the outset of medical education. The program was conducted under the guidance of Dr. T. S. Srinath, Academic Chair, SEMI, ensuring a structured and high-quality learning experience for all participants.

KeralEM 25 – Annual State Conference of SEMI Kerala Chapter

The KeralEM 25 Annual State Conference, organized by the SEMI Kerala Chapter in association with IMA Kerala, was held in June 2025. The event featured five days of hands-on workshops followed by a two-day conference, bringing together emergency physicians and healthcare professionals from across Kerala and India.

Workshops covered critical areas such as Trauma Care, Central Venous Access, Advanced Airway Management, Ultrasound-Guided Nerve Blocks, Radiology, and other essential emergency medicine skills. Sessions were conducted across multiple venues including Ananthapuri Hospitals, KIMS Trivandrum, PRS Hospitals, SP Medifort, and Neyyar Medicity.

With participation from eminent faculty from Kerala and across India, KeralEM 25 served as a major academic and networking platform, fostering skill development, knowledge sharing, and collaboration within the emergency medicine community.

CCTEM Examination Conducted Across Multiple Cities – 2025

The CCTEM Examination was successfully conducted across Bengaluru, Chennai, Delhi, and Hyderabad under the supervision of the SEMI Academic Council.

SEMI at ICEM 2025 – Showcasing India on the Global Emergency Medicine Stage

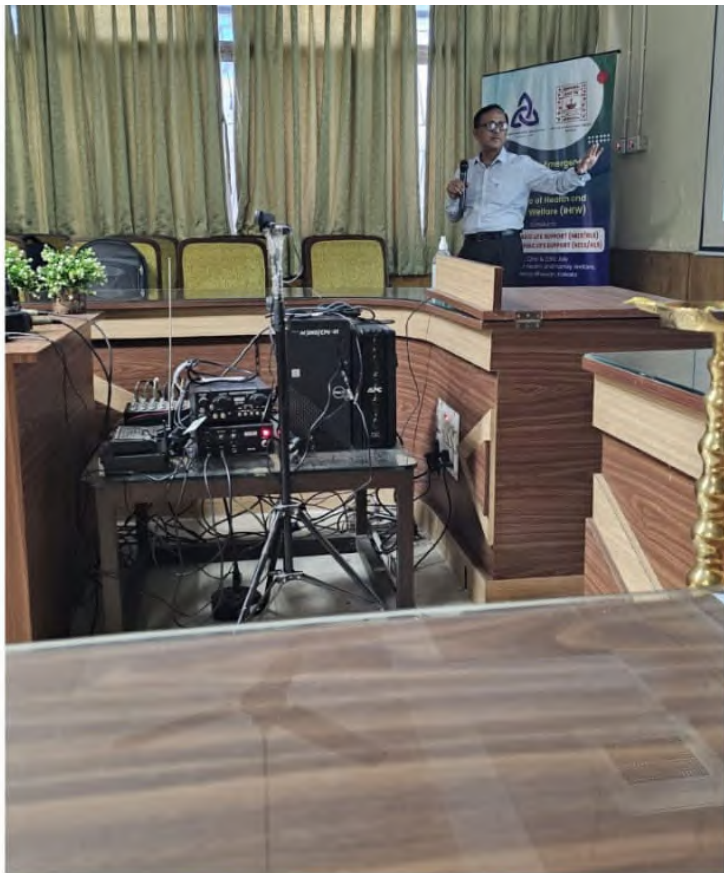

In June 2025, Team SEMI marked a strong presence at ICEM 2025, Canada, representing India's growing contributions in emergency medicine on the global platform.

The SEMI delegation, including Dr. Sowjanya Patibandla and Dr. M. Rajadurai, participated in scientific sessions, workshops, and networking events, engaging with international leaders to exchange knowledge, share best practices, and explore collaborative opportunities in emergency care.

This participation highlights SEMI's commitment to strengthening global ties, advancing Indian emergency medicine, and promoting collaborative learning across borders, further enhancing India's visibility and impact in the international emergency medicine community.

SEMI NCLS Training at Institute of Health & Family Welfare, Kolkata – July 2025

In July 2025, the SEMI West Bengal Chapter conducted a National Clinical Life Support (NCLS) training program at the Institute of Health & Family Welfare, Kolkata. The initiative aimed to enhance life support skills among healthcare providers through standardized, high-quality instruction.

The program was championed by Dr. Ramyajit Lahiri, National Vice President, SEMI, and Dr. Sudip, Dr. Kumar Raj and State board members of westbengal chapter under the leadership of Dr. T. S. Srinathkumar, ensuring a comprehensive and impactful learning experience for all participants.

This training underscores SEMI's commitment to strengthening emergency care competencies across India and equipping healthcare professionals with critical skills to improve patient outcomes.

EMCON 2025 Preconference Paramedic Workshop – Raipur, July 2025

The EMCON 2025 preconference paramedic workshop, held in July 2025 at Ramakrishna Care Hospital, Raipur, provided a focused platform to enhance the skills and competencies of emergency medical responders.

Under the theme “First to Respond – First to Save: Strengthening Skills and Competencies,” the workshop aimed to equip paramedics with practical tools for effective emergency management. Dr. Santhosh Singh led the sessions, highlighting the importance of timely and efficient responses in saving lives.

Participants benefited from hands-on training and practical insights, reinforcing the critical role of paramedics in the emergency medical services (EMS) ecosystem and strengthening the foundation for high-quality prehospital care.

Assam Chapter relaunched on July 2025 at EZECON 2025, Kolkata

National EMT Conclave – Saveetha Medical College, Chennai, July 2025

In July 2025, SEMI conducted the National EMT Conclave at Saveetha Medical College, Chennai, under the patronage of Dr Rajadurai Secretary SEMI, bringing together emergency medical professionals from across India to share knowledge and best practices in prehospital and emergency care.

A key highlight of the conclave was the Air Ambulance demonstration by the ICAAT Team, which showcased advanced aeromedical evacuation techniques and emphasized the critical role of rapid transport in saving lives.

The event provided a platform for networking, skill enhancement, and exchange of expertise, reinforcing SEMI's commitment to advancing prehospital emergency care nationwide.

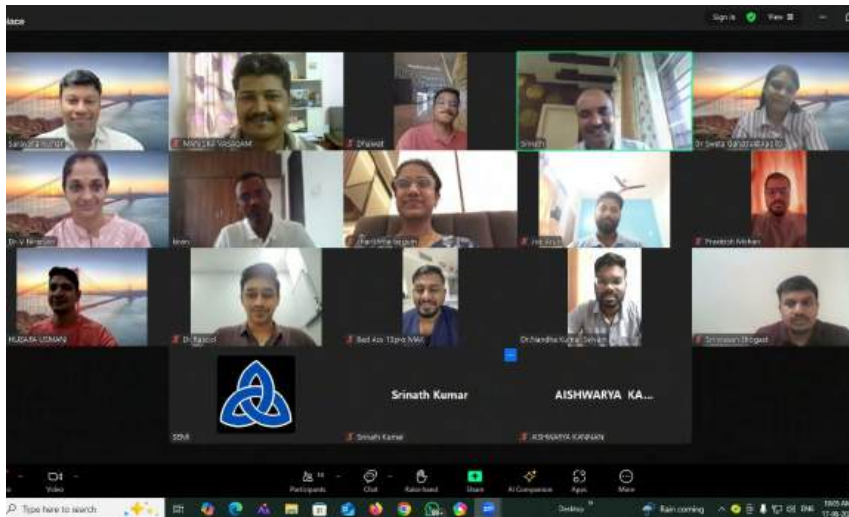

Inaugural ANGELS Workshop on Geriatric Emergency Care Held at Dr. Kamakshi Memorial Hospital, Chennai

On August 25, 2025, Dr. Kamakshi Memorial Hospital, Chennai, hosted the first-ever Advanced National Geriatric Emergency Life Support (ANGELS) workshop – a pioneering initiative dedicated to advancing geriatric emergency care in India.

The program was led by Dr. M. Sai Surendar, Group Head of Emergency Medicine at Dr. Kamakshi Memorial Hospital, and focused on enhancing the competencies of healthcare professionals in addressing the complex needs of the elderly in emergency settings.

Participants benefited from advanced lectures and interactive hands-on training conducted across 10 specialized workstations, each designed to address critical aspects of geriatric emergency management.

This initiative represents a significant step forward in SEMI's ongoing mission to strengthen emergency medicine education and promote excellence in specialized domains of care.

5th SEMI LeadER Hybrid Training – August 2025

In August 2025, SEMI conducted the 5th edition of the LeadER Hybrid Training, designed to develop emerging leaders in emergency medicine through a comprehensive blended learning approach.

The program was led by Dr. Saravanakumar and Dr. T. S. Srinathkumar, whose combined expertise guided participants through advanced leadership and clinical modules.

The hybrid format, integrating in-person sessions with virtual learning, enabled wider participation and flexibility. Participants engaged in interactive lectures, case-based discussions, leadership workshops, and scenario-based exercises, focusing on decision-making, team dynamics, crisis leadership, and advanced clinical judgment.

This program reflects SEMI's ongoing commitment to nurturing the next generation of emergency medicine leadersequipped to excel in both clinical and administrative domains.

ISRO-SEMI Geo-Tagging Project: Audit Visits by Dr. Saravanakumar in Bengaluru and Hyderabad

In August 2025, as part of the ongoing ISRO-SEMI Geo-Tagging Project, Dr. Saravanakumar, SEMI Past President and Executive Co Chair, conducted comprehensive audit visits across Bengaluru and Hyderabad. These visits aimed to assess the progress of geo-tagged emergency care facilities and ensure alignment with project objectives.

During the Bengaluru visit, Dr. Saravanakumar met with Dr. V. Narayanan, Chairman of ISRO, Dr. Kiran Kumar, former Chairman of ISRO and Secretary of the Department of Space. Dr. Narayanan expressed continued support for the project, emphasizing its importance in enhancing emergency care infrastructure through spatial data integration.

A photograph capturing this significant meeting includes Dr. Alex Thomas, President of the Association of Healthcare Providers India (AHPI), Dr. Saravanakumar, and Dr. V. Narayanan, along with other dignitaries, symbolizing the collaborative efforts between healthcare and space sectors.

This initiative underscores SEMI's commitment to leveraging technology and partnerships to improve emergency medical services nationwide.

ISRO-SEMI Geo-Tagging Project: Audit Visits Across Chennai, Bengaluru, and Hyderabad

The ISRO-SEMI Geo-Tagging Project, a collaborative initiative between the Indian Space Research Organisation (ISRO) and the Society for Emergency Medicine India (SEMI), is designed to enhance emergency medical response through advanced geospatial mapping and data analytics.

Under the leadership of Dr. Saravana Kumar, Dr. T. S. Srinathkumar, and Dr. Nischal, Dr. Manzoor, Dr. Surendra, Dr. Kiran Verma the SEMI team conducted audit visits across multiple Emergency Departments (EDs) in Chennai, Bengaluru, and Hyderabad. These visits assessed the integration of geospatial technologies into emergency medical services, evaluated infrastructure readiness, and identified opportunities for improvement.

Leveraging ISRO's satellite capabilities, the project aims to establish a robust geo-tagging system that enables real-time tracking and management of emergency resources. By mapping ED locations, ambulance routes, and critical care facilities, the initiative seeks to optimize response times and improve patient outcomes across the region.

This effort highlights SEMI's commitment to integrating technology with emergency care to strengthen healthcare delivery nationwide.

India's First Extreme & Space Medicine Conference – Bengaluru, August 2025

In August 2025, India hosted its first-ever Extreme Medicine & Space Medicine Conference in Bengaluru, organized by SEMI in collaboration with World Extreme Medicine (WEM) and supported by Apollo Hospitals and SPARSH Hospital.

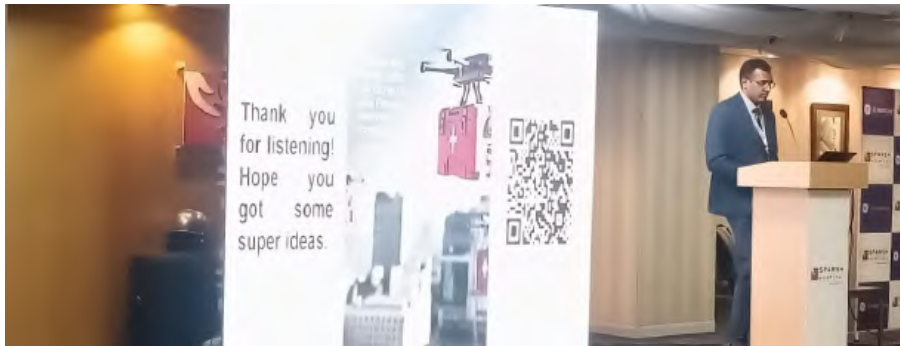

Led by Dr. Imron Shuban and Dr. T. S. Srinathkumar, the conference brought together experts in extreme and space medicine to discuss challenges, innovations, and emerging practices in high-risk environments.

Special highlights included stellar lectures and interactive sessions by Dr. Shawna Pandya (Canada) and Prof. Mark Hansford (World Extreme Medicine), which engaged participants and enriched learning with global perspectives.

This landmark event underscores SEMI's commitment to advancing specialized domains of emergency medicine and fostering global collaboration and knowledge exchange in cutting-edge areas of care.

Mass BLS program was conducted as a part of World Extreme medicine conference at St Joseph School, Bangalore on August 2025 by SEMI Karnataka team. The event led by Dr.T.S.Srinathkumar

Workshop on Drones in Healthcare & Expedition Preparedness – SPARSH Hospital, Bengaluru, August 2025

In August 2025, SEMI conducted a specialized workshop on Drones in Healthcare and Expedition Preparedness at SPARSH Hospital, Bengaluru.

Led by Dr. Imron Shubhan, with expert faculty Dr. Shawna Pandya and Prof. Mark Hansford (WEM), the workshop focused on the innovative use of drones in medical logistics, emergency response, and remote expedition planning. Participants engaged in hands-on sessions and interactive discussions, exploring practical applications of drone technology to enhance emergency medical services and expedition readiness.

The program reinforced SEMI's commitment to advancing innovation in emergency medicine and integrating emerging technologies into clinical and prehospital care.

SEMI West Bengal Chapter Launches Rural Emergency Training Initiative – Purulia, August 2025

In August 2025, the SEMI West Bengal Chapter launched a training initiative for rural doctors at Purulia as part of a pilot project to assess the preparedness of Primary Health Centres (PHCs) in managing emergency scenarios. This project, undertaken in collaboration with the Director of Health Services, West Bengal, focuses on identifying and reporting PHC-specific needs to the government to strengthen emergency patient care.

Building on this pilot, SEMI plans to develop and implement a comprehensive training module for PHC doctors, to be conducted by SEMI and accredited by the West Bengal University of Health Sciences, thereby enhancing emergency care capacity at the grassroots level and improving patient outcomes across the state.

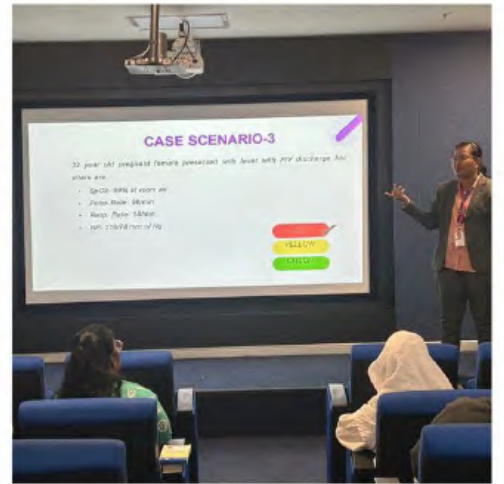

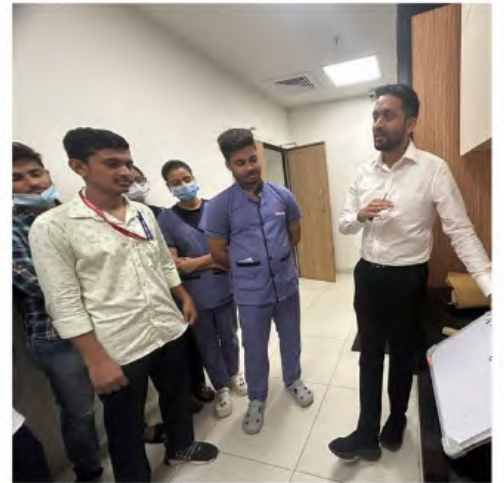

SEMI at IPSC 2025 – Advancing Patient Safety in India

In 2025, SEMI participated in the International Patient Safety Conference (IPSC) held in Delhi, showcasing its commitment to improving patient safety and quality of care in emergency medicine.

The SEMI delegation, including Dr. Saravana Kumar, Dr. Sanjay Jaiswal, Dr. Imron Shubhan, and Dr. Swetha Tyagi, actively engaged in scientific sessions, panel discussions, and workshops, contributing insights on best practices, safety protocols, and systems-based approaches to emergency care.

This participation underscores SEMI's dedication to promoting patient safety, fostering interdisciplinary collaboration, and strengthening India's presence in global healthcare quality initiatives.

The Nursing empowerment workshop conducted by SEMI at SPARSH hospital, Bangalore on August 2025. The program led by Dr.T.S.Srinathkumar

Toxicology Workshop – SPARSH Hospital, Bengaluru

The SEMI Karnataka Chapter, under the aegis of Dr. Mabel Vasnaik, Past President SEMI, conducted a Toxicology Workshop at SPARSH Hospital, Bengaluru, led by Dr. T. S. Srinathkumar, Dr. Nithin, and Dr. Harshitha Sridhar.

The program focused on the recognition and management of poisoning and toxicological emergencies, providing participants with hands-on training and case-based discussions. This initiative highlights SEMI's ongoing commitment to enhancing emergency physicians' skills and improving outcomes in critical toxicology cases.

SEMI National Cardiac Life Support (NCLS) Program – Renaissance Hospital, Kolkata, August 2025

In August 2025, the SEMI West Bengal Chapter conducted the National Cardiac Life Support (NCLS) Program at Renaissance Hospital, Kolkata.

The program provided healthcare professionals with standardized training in cardiac life support protocols, enhancing their skills in managing cardiac emergencies and reinforcing SEMI's commitment to strengthening emergency care capacity across India.

Dr. Shiju Stanly Honored by Kerala State Transport Department – August 2025

In August 2025, the Kerala State Department of Transportation recognized Dr. Shiju Stanly for his outstanding efforts in introducing Emergency Training Programs for transport department personnel.

This honor underscores the significance of empowering first responders on the road and reflects SEMI's ongoing commitment to strengthening prehospital emergency care and public safety through targeted education and collaboration.

In September 2025, a POCUS (Point-of-Care Ultrasound) Workshop was conducted during the National Pulmonology Conference, held under the aegis of API-AFMS (Association of Physicians of India – Armed Forces Medical Services) in collaboration with SEMI.

In September 2025, Dr. Nithin Jain and his team conducted an Advanced Airway Workshop at Max Hospital, Delhi, as a pre-conference event linked to EMCON 2025. The interactive session combined lectures, device demonstrations, and simulated scenarios to equip participants with advanced techniques and decision-making skills for challenging airway management.

Pediatric Resuscitation & Emergency Medicine (PREM) Workshop – Chennai, September 2025

In September 2025, Dr. Mehta's Hospitals, Chennai, hosted a specialized pre-conference workshop on Pediatric Resuscitation and Emergency Medicine (PREM). Organized by the SEMI Paediatric Special Interest Group (SIG), the program focused on enhancing the skills and competencies of healthcare professionals in managing critically ill pediatric patients.

The sessions were led by Dr. Indumathi Santhanam, Dr. Sharadha, and the PREM SIG team of SEMI, under the patronage of Dr. Saravana Kumar, Executive Co-Chair, SEMI, ensuring a comprehensive and impactful learning experience.

This initiative reflects SEMI's commitment to strengthening pediatric emergency care and equipping healthcare providers with practical skills to improve outcomes in critically ill children.

SEMI-Endorsed ECMO Fellowship Exit Exam – Fortis Hospital, Mulund, Mumbai, September 2025

In September 2025, the first batch of the SEMI-endorsed ECMO Fellowship program successfully completed their exit examination at Fortis Hospital, Mulund, Mumbai.

The program was conducted under the aegis of Dr. Sandeep Gore, SEMI National Joint Secretary, ensuring a rigorous and standardized assessment of advanced extracorporeal membrane oxygenation (ECMO) competencies. This milestone marks an important step in strengthening specialized training and expertise in critical care and advanced life support in India.

Pre-EMCON “Breath and Rescue” Workshop – Charnock Hospital, Kolkata, September 2025

In September 2025, the SEMI West Bengal Chapter organized the Pre-EMCON “Breath and Rescue” Workshop at Charnock Hospital, Kolkata.

The program focused on enhancing participants’ skills in advanced airway management, resuscitation techniques, and critical emergency interventions, providing hands-on training and scenario-based learning. This initiative highlights SEMI’s commitment to strengthening practical emergency medicine competencies across the region.

Basic Emergency Skills Training – Max Hospital, Nagpur

Max Hospital, Nagpur, in collaboration with SEMI, conducted a Basic Emergency Skills Training Program.

Led by Dr. Swetha Tyagi, the program focused on enhancing core emergency response skills for healthcare professionals through hands-on sessions and interactive learning, reflecting SEMI's ongoing commitment to strengthening emergency care competencies across India.

EMCON Pre-Conference Workshop “Communicat-ER” – Sundaram Medical Foundation, Chennai, October 2025

In October 2025, an EMCON Pre-Conference Workshop on “Communicat-ER” was conducted at Sundaram Medical Foundation, Chennai.

The program, led by Dr. Waseem Ahmed, focused on enhancing communication skills in emergency medicine, equipping participants with strategies for effective patient interaction, team coordination, and crisis communication. The workshop reflects SEMI's commitment to developing holistic competencies in emergency care beyond clinical skills.

WHO Basic Emergency Course (BEC) – Ramaiah Medical College, Bengaluru, October 2025

In October 2025, SEMI conducted a WHO Basic Emergency Course (BEC) at Ramaiah Medical College, Bengaluru, including a two-day onsite Provider Training and Training of Trainers (ToT) program, under the aegis of Dr. Imron Shubhan, Executive Chair, SEMI.

The initiative aimed to strengthen emergency care capacity by equipping healthcare providers and future trainers with standardized emergency management protocols. The program reinforces SEMI's commitment to collaborating with global health partners and advancing quality emergency care delivery across India.

SEMI Conducts Basic Life Support Training at Sree Venkateshwara Medical University, Chennai

Under the auspices of the Society for Emergency Medicine India (SEMI), a Basic Life Support (BLS) training session was successfully conducted for 500 medical students at Sree Venkateshwara Medical University (SVMU), Chennai.

The program was led by Dr. M. Rajadurai and supported by a dedicated team of 18 SEMI faculty members from hospitals across Chennai. The training emphasized hands-on practice of essential life support skills, including chest compressions, ventilation, use of automated external defibrillators (AEDs), and team coordination during cardiac emergencies. Participants engaged actively in scenario-based drills, receiving real-time feedback to build confidence and competence.

By equipping medical students with these foundational emergency care skills, SEMI reinforces its commitment to strengthening prompt response capabilities in clinical settings. The collective dedication of faculty and students highlighted a shared goal of improving patient outcomes through collaboration and practical training.

SEMI representation in FOM 2.0 International conference by Tamilnadu Government on October 2025

A robust and distinguished representation from SEMI (Society for Emergency Medicine India) marked the prestigious International Conference FOM 2.0 (Future of Medicine), organized by the Tamil Nadu Government in October 2025. Leading the contingent were Dr. Sowjanya Padipandla (President, SEMI), Dr. Rajadurai M. (National Secretary, SEMI), and Dr. T. S. Srinathkumar (Academic Chair, SEMI). Their presence underscored SEMI's commitment to advancing emergency medicine in India, bringing leadership, academic insight, and institutional credibility to the national stage.

“

"Ignorance is bliss"—but not when it comes to the law.

As emergency physicians, we are committed frontline caregivers, passionate about our work and specialty. Beyond saving lives, we play a crucial role in safeguarding the right to emergency healthcare and often find ourselves interacting with legal systems.

Understanding the connection between healthcare and the law is no longer optional. It's essential to build a legally safe practice, institution, and career. Welcome to LAW-ER!

How this course will help you ?

1. Gain a basic understanding of the Indian legal system
2. Explore key legal issues, case laws, and guidelines in emergency medicine.
3. Make informed decisions during complex, legally sensitive situations.
4. Identify and avoid scenarios that increase litigation risks.
5. Build confidence by understanding available legal defenses in case of litigation.

LAWER
Law and Emergency Medicine

The Medico Legal education & certification program for All
Emergency Physicians | EM Residents

Topics covered

1. Legal System in India: Overview and liability.
2. Medical Negligence and Defenses: Understanding negligence and how to protect yourself.
3. Consent: Importance and legal requirements.
4. Indian Penal Code (IPC) & Bharatiya Nyaya Sanhita (BNS): Key provisions for doctors
5. Advanced Medical Directives, DNR, and Euthanasia: Legal aspects and implementation.
6. Research and Clinical Trials in ED: Ethical and legal considerations.
7. Confidentiality and Disclosure: Balancing patient privacy and legal obligations.
8. Code of Conduct and Ethical Regulations: Standards for professional behavior.
9. Supreme Court Judgments: Relevant cases impacting emergency medicine practice in India
10. Documentation in ED: Death certificates, accident registers, and medico-legal cases (MLCs).
11. Professional Privilege: Legal protections for physicians.
12. Handling Sexual Assault Victims in ED: Legal protocols and sensitivity.
13. POCSO Act: Guidelines for handling child victims of sexual offenses.
14. Key Regulations for ED Physicians: Rules every emergency doctor should know.
15. Court Summons and Etiquette: Navigating legal appearances.
16. Common Medico-Legal Dilemmas: Mistakes and challenges in the ED.
17. Recent Cases: Insights from current legal precedents

LEADer

Experience breakthrough thought leadership program designed by successful leaders in EM to help you grow professionally and personally.

Share, apply and explore ideas with them to help transform your practice, develop mindset that will empower successfully navigate the challenges and drive meaningful change in your department and organisation.

What competencies you will gain?

Leadership Transformation – Systems thinking | Leader Traits – What your organisation looks for | Setting yourself for success | "Scale up" checklist | Understanding ED Finance | Data driven decision and problem solving | Result based leadership | Effective Communication | Useful Sites, Apps, Tools | Negotiation skills | Leadership in Volatility, Uncertainty, Complexity, Ambiguity (VUCA) | Measuring Success, The balanced score card | Developing Self awareness and managing emotions | Creating a better workplace | Quality driven leadership strategy & Quality Tools | Thriving through Change | Women in leadership role | Technology transformation in Emergency Medicine | Marketing your ED and being influencer | ED violence – Managing perpetrators | Real ED growth Case studies from India | Setting up an Emergency Department | Bringing joy at work and home

Exercises

Designing customer experience | Customer satisfaction survey | Policy and Process | Awareness campaign | Handling customer complaint | Net Promoter score | How to ask your CEO (New equipment, Salary increment, Academic affiliation, Promotion) | ER Process Value Stream mapping | Using Quality tools in ER | Personal growth plan | KPI's for your ED | CREDO card | Junior doctor evaluation form

LEADer

ED Leadership Course

**Build essential knowledge and competencies for
Transitioning and Succeeding in a leadership role.**

Who will gain the most?

New EM graduates, especially if the first job offer is to head an emergency department | Deputy Heads of ED | Consultants who aspire to lead a department | Emergency Department HODs who wish to up skill and update | If you are someone new to EM leadership role | Final year residents of EM

2 full day's Residential program (20hours) | Online pre course (10Hours)

Key Benefits

Empowers you to take calculated risks, structured and well thought through decisions, gain tools to accelerate change to advance yourself, your team and department.

PEDIATRIC RESUSCITATION EMERGENCY MEDICINE (PREM)

Workshop by SEMI Paediatric SIG

Children are not “small adults.” Their physiology, response to illness, and the progression of emergencies can be subtle yet fast, demanding rapid assessment, precise interventions, and calm teamwork. The Paediatric Resuscitation Emergency Medicine Workshop is designed to equip healthcare professionals with the knowledge, skills, and confidence needed to respond effectively when minutes matter.

In this hands-on, interactive workshop, participants will:

Learn to recognize the critically ill or deteriorating child early,

Practice high-quality resuscitative techniques specific to paediatric patients (airway, breathing, circulation),

Work through simulated scenarios of paediatric cardiac and respiratory emergencies,

Enhance team communication, role clarity, leadership, and decision-making under pressure.

This workshop offers essential training to improve outcomes, reduce errors, and strengthen confidence when facing paediatric emergencies.

Highlights:

Expert team of faculties

Simulation and table top exercises

Who can attend:

PG's Residents of Emergency Medicine

Emergency Physicians

Intensivists,

Pediatric postgraduates

Course Includes:

Course material

Certification

Course Duration:

One day

EMERGENCY DEPARTMENT QUALITY CHAMPION

Professional certificate course

**2 DAYS
Training**

Official training program of SEMI to train Emergency Physicians on Quality Improvement & Patient Safety.

Course Description:

The Emergency Department quality champion certificate course is a hybrid training program for effective quality implementation, quality assurance and create impact in thier respective work place for improving patient safety and clinical outcomes. All participants will recieve on successful completion of the course assignments and full training recieve "Emergency Department Quality Champion certificate (EDQC)" issued by Society for Emergency Medicine India.

Who should attend:

This course will primarily benefit emergency medicine physicians and nurse leaders interested in improving their own clinical practice, and potentially effecting system-wide change, through optimized emergency care delivery focused on patient safety and quality

Course Content:

- Quality assurance in ED
- Understanding structure, Process & Outcomes
- Measuring ED quality
- Quality tools for ER
- Root cause analysis and CAPA
- Key Performance Indicator for Indian ED
- Developing ED satisfaction score
- Continues Quality Improvement
- Internal Quality assurance (Internal Assessment, Checklist)
- Accreditation standards for Emergency Department
- IFEM Quality framework

Course Content:

- WHO Quality framework
- ISRO-SEMI ED Quality guidelines
- Effective Communication for Quality
- Patient Safety management (Patient Safety framework, Infection control, Medication safety)
- Clinical Governance (Education & Training, Leadership, Clinical Audit, Risk Management)
